

Practice Management **Bridge**[®]

Does your practice offer all the ways that **patients want to pay?**

Increase your cash flow and decrease A/R with Bridge[™] Payments

Take all forms of payment at every point of the care cycle, efficiently and effectively.

Before visits

Securely store the patient's preferred card on file for one-time payments and flexible payment plans.

At the office

Accept all forms of payment, including contactless methods like tap-to-pay card and mobile device payments.

After visits

Let patients pay through a convenient payment link on your website and through links in emails and text messages.

Bridge Payments makes it easy to accept and post payments to the ledger.

A simple, safe, and secure solution, Bridge Payments is proven to reduce the A/R of a healthcare practice in as little as 90 days.
