

Never send a paper statement again.

Our multiple digital payment options post automatically to your existing PM system or EHR.

Online Payments

Set up your own payment link to begin receiving online payments from patients.

Mobile Payments

Make it easy for patients to make payments through their phones.

Text to Pay

Send your patients a text message with their balance due and a payment link.

Card on File (CoF)

Store patient payment information securely, so your practice can get paid more reliably.

Contactless Capabilities

Enable patients to simply tap their card or mobile device against the card reader to make a payment.

Customizable Messages

Reach patients directly via text message with reminders about payments, appointments, and other personalized notes.

Get paid quickly, easily, and securely with digital payments available now through Bridge Payments.
